

# PHOTOGENEALOGY®

July 2023. No.3

The Photogenealogy community continues to grow:

- approaching 600 followers on [Twitter](#)
- questions asked and advice sought on Twitter and by email
- more requests for the newsletter, and
- requests for talks coming in regularly, including from New Zealand, Australia and USA.

🌐 *Photogenealogy is going global!* 🌐

This is both exciting and gratifying. And is in no small part thanks to you and your interest and support for this innovative fusion of family history photos and genealogy.

## Trademark

The progress made by Photogenealogy is reflected by the inclusion of the ® symbol in the logo, which signifies that it is now a registered trademark. When

you see this logo, you will know that any content it accompanies comes directly from me.

## Book

I am beyond excited to tell you that I have signed a contract with Pen & Sword Books. The book has the working title: "Caring for your Family History Photos through Photogenealogy". I can't wait to share my book with you, but it won't be available for a while. Watch this space!

## Talks

If you are a member of Family Tree Plus you can watch a [recording](#) of the Scanning talk I gave

in March. Non-members can book the Scanning talk as part of the 6-part Photogenealogy [Course](#), which will be

hosted by the Society of Genealogists (SoG) in Oct/Nov 2023. Bookings are open for the course or for each of the talks individually. To see all the available talks and bookings just head to the Photogenealogy [website](#).

## Articles

I am writing two articles for the [UK Family Tree](#) magazine. These will focus on how to care for your family history photos before and after scanning. (Available Jan & Feb 2024)

## A Photogenealogy success story

The [March issue](#) of Family Tree magazine contains a letter I wrote, telling how three second cousins (previously unknown to each other) each had a photo of the same unknown ancestor, and how the cousins came together to identify that ancestor.

## Suggestions for you...

### Save Your Photos Month

#### [Free educational classes](#)

available in September, provided by The Photo Managers.

### We Are [...]

If you would like to build and share your own online family archive, including your family photos, you will find this [article](#) really interesting.

I'd love to hear how you are getting on with your photogenealogy project. You can [contact](#) me through my website or via Twitter [@photogenealogy](#).

Thanks for your interest in Photogenealogy and for signing up for this newsletter.

I'm excited to share this journey with you!

All the best, *Ann*
